Greenlee doesn't tell Jack about her wedding plans but he suspects she's hiding something from him. When Jack refuses to leave town, Greenlee fears her plans will fall apart. David assures Greenlee that Ryan will be at the wedding.

Speaking of Ryan, he soon tells Tad they need to uncover the identity of David's mystery bride before the wedding. Liza once again feels like the odd man out when Tad ends their date after getting a call from Krystal telling him that Kathy is sick.

On the other side of town, Brot's not happy as he watches Natalia flirt with the hacker who created the virus that destroyed Fusion's software as he works to repair the damage to the system there.
