

Fluke & Luke are the same person!

Now the pieces of the puzzle are falling into place. Luke and Fluke are the same person. Luke has some sort of multiple personality disorder. He changes from the Luke Spencer we know and love to a vile criminal we hardly recognize. The question is – why? What happened to make Luke slip over the edge?

There's a lot of talk about what happened when Luke was a child. But I wonder why it took so long for this other personality to come out. For the most part, Luke seemed fairly normal.

The only time we really saw him violent for no good reason was when Laura was raped. After that story was over, Luke became a loving husband and a father. He was far from traditional, but Luke would never intentionally harm a member of his family.

Now that Nikolas shuttled Helena off to the island (finally), will he tell Elizabeth and Sam the truth about Jake? Sam seems to be moving toward Jake lately. But I wonder, who will Jake/Jason choose? I think he will choose Elizabeth. I really do. Jake and Elizabeth connected even when they didn't know Jake was Jason. It sure would be nice to see Jason regain his memory and choose to be with Elizabeth finally.

I knew Ned would step up for Olivia. They're pretty adorable together and a baby will just add to their cuteness. Let boring, hypocritical Alexis go back to Julian. The two of them deserve each other.

In actor news, Kathleen Gati (Dr. O) will appear on the new web series Winterthorne opposite Linda Gray. Kristen Alderson's (Kiki) last scenes aired on Monday. Fans got to see Alderson and Roger Howarth (Franco) exchange some emotional dialogue. If you missed it, take a look [here](#).
