Imagine being in Phyllis' shoes this week as she visits her estranged father on his deathbed. Will he admit the truth about his crimes?

At the same time, Daisy is released from jail. How will her freedom affect other Genoa City denizens? We can't spill all the beans, but we can share this. Daisy's release sets a chain of dramatic events in motion. Who will pay the biggest price?

While on the other side of town...

Things are not going well for Victoria and her dad. Yes, she has landed a great new job, but not so surprisingly, her new position puts her at odds with Victor. Why does he become so upset?

And, George shows up again in town this week. What's he got on his agenda this time? Don't miss a moment of The Young and the Restless this week.
